

About Our Company

CareBuilders at Home is dedicated to providing compassionate, high-quality home care solutions that empower individuals to live safely and comfortably at home. With a focus on enhancing quality of life, our caregivers deliver personalized support with dignity and respect. We are fully state-licensed, bonded, and insured, proudly partnering with the VA and many long-term care insurance providers.

Medical Alert Device Included with your Care

Smart Support That Complements In-Home Care

At CareBuilders at Home, we go beyond traditional home care. By combining personal touch + smart technology to deliver the most complete non-medical home care experience available. Every client receives access to 24-hour remote monitoring technology that keeps them safe, connected, and supported – even when a caregiver isn't in the home.

24/7 Wellness Monitoring - Detects inactivity, irregular routines, or unusual patterns.

Fall Detection & Alerts - Automatic notifications if a fall occurs, even without pressing a button.

Proprietary location detection - Combines GPS and WiFi sources, providing the fastest and most accurate location service

Full sensor suite -monitors user's heart rates and daily step count using a simple touch interface

Runs on AT&T LTE Network - providing nationwide mobile coverage

Text-to-locate innovation - Allows caregivers to locate the device with a simple text message

What Makes Us Different

Personal Assistant Services Program

Our Personal Assistant Services (PAS) Program is designed to provide short, task-specific services offering maximum flexibility and convenience. These visits start with as little as 30 minutes, allowing clients to receive focused support without the industry-standard 4-hour minimum. Services can be purchased individually or bundled into a customized package that suits your needs.

Task Specific Visits are available for:

- Personal Care (Bathing, Dressing, Oral Care)
- Transportation Services
- Housekeeping (Including Laundry)
- Wellness Checks

Live-In Care

An excellent alternative to living in a facility, provided 1-on-1 in the comfort of your own home

Brain Health & Fitness Program

Our Brain Health and Fitness Program is designed to keep the mind sharp and engaged. Through personalized cognitive activities, memory exercises, and mental stimulation, we help clients maintain and even improve cognitive function. Our caregivers are trained to support brain health with activities that are both enjoyable and beneficial.

Senior Placement Services

Finding the right living environment can be challenging. Our Senior Placement Services simplify the process by guiding families through the options available—whether it's assisted living, memory care, or independent living communities. We help match clients with the perfect setting that suits their needs, preferences, and budget.

“Love is in the Care”™

Signs your Loved One May Need Home Care

- Difficulty with daily tasks such as: bathing, dressing, grooming, toileting, preparing meals
- Frequent Falls or Accidents
- Decline in personal hygiene
- Poor medication management
- Increase in forgetfulness or Confusion
- Social withdrawal or isolation
- Unattended household chores
- Decreased mobility or difficulty with transportation
